

# out of print

contemporary piano jazz

*„As a whole, the music is reflective and cinematic, conjuring up musical images to accompany one's own imagination. Despite the often melancholic moods, the record remains inviting due to its rays of light and synchronized music-making.“*

*Jay Collins, cadence jazz magazin*

**Volker Kottenhahn piano | Dirk Strakhof bass | Johannes Bockholt drums**

For over 20 years, the Berlin Piano Trio has worked together and has produced 5 CDs in their original lineup.

In 2021 the Band recorded their latest Album „Unexpected Turn“.

The Trios' music forms a delicate sound cosmos, constantly looking for new forms of expression. This sound is refined with a consistency that isn't guided by temporary trends, but relies on individuality and maturity.

Out of print's current release **Unexpected Turn** sets foot on a new path again – this time pure piano trio music.

On the new CD, released in 2023, a mosaic turns into a synthesis of the arts.

Each one of the nine tracks, all written by pianist Volker Kottenhahn, bassist Dirk Strakhof and drummer Johannes Bockholt has its own character. Together they exhibit a fascinating range of moods and styles.

Their music shows candor, liveliness, and love of experimentation.

In 2016 with the Collaboration of german Goethe-Institut „out of print“ was again, like in 2000 and 2013, guest in Columbia and Ecuador.
